HTML/CSS	●●●●○

PROJECTS

https://github.com/areezvisram

AI Sketches a Photo

- Developed an AI that takes a real-life photo and creates two pencil sketches of the photo
- Implements the Canny edge detection algorithm

Languages: Python

https://github.com/areezvisram/AI-Sketches-a-Photo

Image Recognition AI

- Developed an AI that can identify every day objects using image recognition
- Trained on dataset and gives percentage likelihood of what an image is

Languages: Python (Jupyter Notebook)

https://github.com/areezvisram/Image-Recognition-AI

PillsOnWheels

- Prescription delivery startup mobile app
- Allows for delivery and organizing of prescriptions

Languages: React Native, CSS

Google Play: https://play.google.com/store/apps/details?id=com.Visram_INC.PillsOnWheels

https://github.com/areezvisram/Pills-on-Wheels-HTNE

COVID-19 Inventory Management

- Identifies areas most in need of medical supplies
- Shows amount in stock and amount needed based on location

Languages: Flask, HTML, CSS

https://github.com/areezvisram/RUHacks-2020-COVID-19-Inventory-Management

INTERESTS

- Artificial Intelligence
- Machine Learning
- Programming
- Entrepreneurship
- Innovation

TRAITS

- Hard worker
- Committed
- Collaborative
- Strong problem-solver
- Communicator
